ICED TEA  
(BLOOD ORANGE / MINT BERRY / EARL GREY)

## FAQS

### Who will be setting up and serving coffee at my event?

Creating a personal and quality experience is top priority for our team - therefore, only our most experienced baristas hit the road with our mobile cart. All baristas are trained and practise their craft at bwè kafe, our brick & mortar specialty coffee shop, located in Jersey City and Hoboken, New Jersey.

### What kind of coffee equipment do you bring?

To ensure top quality, we only use the best equipment in the business. For each mobile cart set up, we use a single grouphead La Marzocco Linea Mini machine, with a Mazzer SuperJolly grinder and Acaia weighing scales. Add-On brewing methods include V60 Dripper, Siphon & Chemex.

### How far will you travel?

We are based in Jersey City, New Jersey - but are willing to travel! Our Event Cafe Packages includes a 30 minute travel distance. For further destinations, we'll work with you closely to discuss additional travel + accommodation costs.

**(FUN FACT: The furthest our baristas have traveled so far is Cannes, France!)**

### What kind of power is required for your equipment?

For each mobile cafe set up, our equipment requires access to (2) 110v/15amp dedicated outlets.

### How much space do you need?

We pride on being a compact operation! For each mobile cafe set up, we only need a 6'x6' footprint. For Add-Ons such as Furniture & Decor or More Guests, we'll work with you to create the perfect on-site coffee shop environment.

### How much time do you need to set up & break down?

For each mobile cafe set up, our baristas need 1.5 hours before and after service, to make sure our equipment is up to temperature and ready to serve! For bigger visions, we'll work with you to discuss set up & break down timelines and needs.

### What types of events can bwe To Go do?

bwè To Go is available for all types of events, productions and activations. We have served espresso at TV shoots, music festivals, on luxury yachts, company meetings, private events...and many other fun locations. Have an idea? We're up for a challenge.
